MSCR 111.14(c)

Hearing called.
All parties appearing without counsel knowingly, voluntarily, and intelligently waived counsel and the Court approved said waiver/s.
The Court takes judicial notice of the contents of its own file and considers the evidence presented at this hearing and finds: It is not necessary for the juvenile to remain in protective custody. It is not necessary for the juvenile to remain in protective custody. (DVJUR)
Pursuant to the provisions of Title IV-E of the Social Security Act, the Court finds that: The first contact with the juvenile's family occurred during an emergency in which the juvenile could not safely remain at home and continuation of the juvenile in the home was contrary to the welfare of the juvenile. Therefore, it was reasonable to remove the juvenile due to the emergency circumstances. Reasonable efforts were made to keep the juvenile in the home but continuation of the juvenile in the home is contrary to the welfare of the juvenile. Reasonable efforts to prevent removal from the juvenile's home were NOT made, but reasonable efforts are now being made to return the juvenile to the home. Further, continuation of the juvenile in the home is contrary to the welfare of the juvenile.
Juvenile may not remain in the home because it would be contrary to the juvenile's welfare for the following reasons: Neglect by
Other of Missouri Children's Division report dated

Accordingly, the Court enters the following order:
Until further order of the Court, the juvenile is continued in protective custody and in the temporary legal and physical
custody of:
Children's Division for suitable placement who shall have the duty and be authorized to provide for the necessary food,
clothing, shelter, medical are, education, treatment and discipline of the above captioned juvenile.
other
The juvenile is continued in protective custody with SCMCO until further order
of the Court.
Physical placement is hereby returned to/placed with SCMCO until further
order of the Court.
The written service agreement is approved and the parties are ordered to perform its terms.
☐ The juvenile is ordered released forthwith to:

Version 1 of 2

Social work consult received for this mother who had a positive UDS for meth 7/11/16 and 12/9/15, positive for cannabinoids at delivery, and does not have custody of other children. I spoke with mom Lacy and her friend/roommate and confirmed that someone from Children's Division saw her last night, for the Newborn Crisis Assessment. She verbalized that the concern is related to positive drug tests but that it was a false positive due to her medication. They verbalized having necessary baby items. She plans to move to Oklahoma. Lacy denied need for any community resource information.

Phone calls to Christian county, Taney county, and Lawrence County Children's Divisions to try to speak with Crystal Kennedy who was on call last night for the circuit and was assigned. I spoke with supervisor, Gabriel, from Lawrence county and confirmed that the family address in Billings is in Stone County. He said the juvenile office for Stone county plans to take custody of the baby. He said I will be faxed custody paperwork today. I will request that Children's Division inform mother of baby when custody is taken.

Editor: Nelson, Paula D., LCSW (Social Worker)

Received report from daytime on-call Social Worker, Nicole, at shift change of on going situation on 5A re:State of Missouri, taking custody of baby, Hayden Dodge Whitely, as a result of a hotline.

Came to the floor and met with mother/baby's Nurse, Crystal, who provided update and needing clarity as to discharge the baby or not to, Mo Children's Division Worker, Wren Armstrong.

Pt and family in room are arguing that the Mo Travel Letter provided, stated that, "Children's Division Alternative Care Placement Begins 7-29-16 at 12:50pm" to "CD Alternative Care Placement ends 7-30-16 at 12:50pm". They did not feel that the State had the legal right to take custody after that time and date.

I discussed outside of room with Wren, Mo CD worker, and she has provided: Travel Letter, Request For Intervention form, her picture ID and picture ID of Foster Parent's, also present. I have placed these forms in pt and baby's chart.

Because of the questioning re: CD worker taking custody after July 30th,2016:7:30pm, Wren Armstrong, downloaded a form from Missouri Department of Social Services, that does state that baby girl, Hayden Dodge Whitely, is listed as custody of the state, and assigned to Springfield Partners (for case management services) effective July 28th, 2016. This form was provided to pt's Nurse, Crystal, & has also been placed in mother's and baby's chart. I provided a copy to MOB, Lacy Wheeler. Nurse, Crystal, confirmed with baby's physician, that she is medically clear for discharge, and taken into custody of the CD representative, Wren Armstrong.

Phone calls to Christian county, Taney county, and Lawrence County Children's Divisions to try to speak with Crystal Kennedy who was on call last night for the circuit and was assigned. I spoke with supervisor, Gabriel, from Lawrence county and confirmed that the family address in Billings is in Stone County. He said the juvenile office for Stone county plans to take custody of the baby. He said I will be faxed custody paperwork today. I will request that Children's Division inform mother of baby when custody is taken.

1700 Addendum: Per Stone County Children's Division supervisor, Tynee Johnson, the Stone County Juvenile Officer, Shannon Doyle, took custody of the baby and notified mother of baby by phone (without informing hospital staff first). Mom Lacy verbalized not understanding why they were taking custody and claimed to not have been told about the positive drug test. A woman who said she was Lacy's sister, the woman who Lacy has been staying with, and another female visitor verbalized being upset about the situation.

Apparently, a Greene County investigator came to the hospital today and talked with Lacy but also never notified hospital staff. The Greene County worker was involved due to a request from Stone county prior the on-call worker for the Stone county circuit came to see Lacy around 2 AM. The Greene County worker apparently provided no information regarding taking custody so they were not expecting that when the Juvenile Officer called. Tynee Johnson said she would inform Shannon Doyle that is not the appropriate way to inform a mother. I later informed Shannon that the hospital staff is also not responsible for that role. The foster care case manager, Wren Armstrong, has now been requested to come to the hospital to speak with Lacy and family. I informed the security desk about the situation and would recommend that security stand by when Wren talks to them. Foster care arrangements have been made and info added to the sticky note for expected discharge of baby tomorrow. Evening social worker to put documentation (Authorization for Alternative Care, travel letter, and Medicaid letter) on baby's paper lite chart.

Version 1 of 1

notified that the infant would be staying in the room until discharge.

At 1700 on 7/30/2016 Wren Armstrong arrived on the floor along with the foster parents for Hayden (infant) and stated that she was here to collect the infant. RN stated that she did not have a discharge order and Ms. Armstrong became upset and demanded that Dr. Andrews be called and a discharge order be requested since the infant was medically sound, even though the mother was not yet being discharged. RN contacted Dr. Andrews who wrote a discharge order pending clearance from Mercy Social Services. RN placed a stat page to Mercy Social Services and Nicole stated that it was shift change, but she would have the oncoming social worker contact the floor. RN offered to allow the foster parents and Ms. Armstrong to sit in the closest waiting room by labor and delivery to increase their comfort, but they initially refused, however, they left the floor and went to the waiting area approximately 10 minutes later.

Nicole with Mercy Social Work called RN back and stated that she was working on contacting Shelia Dullum to aid in this matter. Sheila Dullum called and spoke with this RN and clarified situation and then asked to speak with Ms. Armstrong. This RN went to waiting room and asked Ms. Armstrong to accompany her back to floor to speak with Sheila. When Sheila finished speaking with Ms. Armstrong she spoke with the RN again and stated that we needed to obtain photo ID's from Ms. Armstrong and the foster parents. RN obtained ID from Ms. Armstrong. Ms. Armstrong then requested to speak with Ms. Wheeler, while RN was obtaining the photo ID's of the foster parents from the waiting room. RN asked that Ms. Armstrong wait to speak with Mrs. Wheeler until she would be available for support to Mrs. Wheeler. Ms. Armstrong agreed.

After RN returned to unit, Ms. Armstrong was permitted to speak with Ms. Wheeler. Ms. Wheeler was very upset and requested to be discharged. Paula Nelson with Mercy Social Work arrived on floor and was briefed on the situation by this RN. At 1755 Mrs. Armstrong exited Ms. Wheeler's room and stated that she was giving them 15 minutes to say goodbye. At 1810 Ms. Armstrong removed the infant from the room. At this time the family of Ms. Wheeler expressed concern that taking the infant was not legal and Paula Nelson, contacted risk management. After being cleared by risk management. The footprint sheet was validated against the infant tags and signed by two RN's. Bracelet's were cut off the infant and given to MOB along with a copy of the footprints and the crib card.

Social work consult received for this mother who had a positive UDS for meth 7/11/16 and 12/9/15, positive for cannabinoids at delivery, and does not have custody of other children. I spoke with mom Lacy and her friend/roommate and confirmed that someone from Children's Division saw her last night, for the Newborn Crisis Assessment. She verbalized that the concern is related to positive drug tests but that it was a false positive due to her medication. They verbalized having necessary baby items. She plans to move to Oklahoma. Lacy denied need for any community resource information.

Phone calls to Christian county, Taney county, and Lawrence County Children's Divisions to try to speak with Crystal Kennedy who was on call last night for the circuit and was assigned. I spoke with supervisor, Gabriel, from Lawrence county and confirmed that the family address in Billings is in Stone County. He said the juvenile office for Stone county plans to take custody of the baby. He said I will be faxed custody paperwork today. I will request that Children's Division inform mother of baby when custody is taken.

Wren Armstrong with Springfield Partners Alternative care called on 7/29 stated that she would come speak to the family between 1800 and 1900 on 7/29/2016 about the state taking custody. Per patient request, this RN attempted to call Ms. Armstrong to confirm appointment at 1830, but only reached a voicemail box, where a message was left requesting that she confirm appointment or reschedule. Ms. Armstrong did not visit with the patient on 7/30/2016.

RN was contacted by Jessie Davis, Springfield Partners Alternative Care representative at approximately 1200. Stated that she was following up concerning the Wheeler Baby, and that she wanted to speak with the mother by phone regarding the state taking custody of the infant. RN stated that relaying this information over the phone was inappropriate. Jessie stated that she would come up to the hospital around 1300 to speak with the patient directly.

Jessie Davis arrived on the floor at approximately 1300 and spoke with Ms. Wheeler and informed her that the state would be taking custody. Ms. Wheeler was upset, but understanding in the end. Jessie Davis came out and informed this RN that she was fine with the infant staying in the room until discharge, which was scheduled to be on 7/31/2016 at the same time the mother was discharged. Kim Harms with Mercy Social Services was

Original Note by Harms, Kimberly S, LCSW (Social Worker) filed at 7/30/2016 4:33 PM

MSWS NOTE:

Received call from nurse caring for MOB and baby today. She indicates MOB upset stating she does not know what is going on. I called the Springfield Partners/Alternative care worker Wren who told me to call the on call worker at 827-8203 which I did. She will call the MOB and review with her the plan. Once that is done she is to call me back and let me know we can proceed with notifying the foster mother and arrange to discharge the

Addendum: Springfield Partners/Alternative Care worker did come and talk with MOB today. Nursing told me MOB and baby will not discharge until tomorrow.

Addendum: Noted documentation and issues that occurred after I had left for the day yesterday. I am somewhat uncertain as to where the Springfield Partners got the idea that baby was to discharge yesterday. It was my understanding that they would not come to get the baby until they had contacted SW or nursing to clarify when baby and mother were to discharge. At no time did I tell them that baby was ready for discharge yesterday.
